High quality primers and topcoat finishes...

PRIMERS

PrimeTec MX is a single component, high solids, high performance water based anti-corrosive primer. It has been specifically designed to provide very fast drying speeds, excellent anti-corrosive properties and flash rust resistance. Due to its smooth finish and superior adhesion when applied directly to clean steel, aluminium and galvanised substrate, PrimeTec MX is the ideal primer for a range of our water based topcoats.

PrimeTec Epox-602 is a one-component water based epoxy primer that provides excellent adhesion to blast cleaned, or cold rolled steel, aluminium, galvanised substrates. PrimeTec Epox-602 delivers excellent anti-corrosive performance and prevents rust bleed through. PrimeTec Epox-602 is very fast drying and can be over-coated with both one and two-component topcoats.

PrimeTec Epox-300 is a water-borne, high build, polyamide cured, zinc phosphate, two component epoxy primer which offers very fast drying, excellent adhesion and superior long term anti-corrosive properties. PrimeTec Epox-300 can easily be applied by airless spray and is suitable for use as a primer finish or can be over-coated with a range of solvent based or water-based topcoats. PrimeTec Epox-300 delivers excellent chemical and solvent resistance and is resistant up to 100°C.

TOPCOATS

ShieldTec Ultra 6012 gloss single pack water based paint provides extremely fast drying to a hard, tack free, durable, chip resistant smooth finish. ShieldTec Ultra 6012 has superior adhesion properties to virtually all previously painted surfaces and to bare steel.

ShieldTec Ultra 6012 delivers superior anti-corrosive performance and flash rust resistance when applied to bare steel. ShieldTec Ultra 6012 offers excellent opacity, dirt resistance, UV resistance and early water resistance.

ShieldTec PU-200 gloss two pack water-borne polyurethane topcoat provides an extremely durable and scratch resistant finish. ShieldTec PU-200 offers excellent exterior UV resistance and weathering performance along with superior solvent & chemical resistance properties. ShieldTec PU-200 can easily be applied by airless or air assisted airless spray application.

At AquaTec Coatings, we offer high quality water based coatings at competitive prices. Our dedicated technical support and sales team is always on hand to provide excellent customer service.
